

Faculty and Staff Development

- During the celebration of CvSU 108th Foundation Day, one of the faculty members of the college, Ms. Florence M. Banasihan, was honored as Service Awardee for 15 years in service. She is one of the faculty members of the Department of Computer and Electronics Engineering. The event was held on February 10, 2014 at the University Quadrangle.
- Mr. Keno S. Domingo, an Automotive faculty and Mr. Arlis Deri, a Department of Industrial Engineering and Technology (DIET) staff passed the TESDA NC II Assessment – Automotive Servicing II. They took the exam at Biñan, Laguna on February 22, 2014.
- Three faculty members from the Department of Information Technology attended national seminars. Mr. Marlon R. Pereña and Ms. Charlotte B. Carandang, participated in the 1st eHealth Summit at Hotel Sofitel on February 4, 2014. Mr. Kenneth Yaya joined the 10th National Natural Language Processing Research Symposium at De La Salle University, Manila on February 21–22, 2014.
- Ms. Mary Joyce P. Alcazar of the Department of Industrial Engineering and Technology participated in the Frontiers in Engineering and Innovation Forum 2014 on February 14, 2014 at the University of the Philippines – Diliman, Quezon City.

DIT Holds eLearning Seminar

Ms. Lydia P. Nosa, the resource speaker, discusses eLearning tool

DIT faculty members participate in the seminar: *Strengthening eLearning: An Effective Tool in Teaching*

The Department of Information Technology (DIT) conducted a seminar entitled “Strengthening E-Learning: An Effective Tool in Teaching. All faculty members of the department attended the event held on February 11, 2014 at the CEIT Building. Ms. Lydia P. Nosa, the University Webmaster and faculty of DIT, served as resource speaker.

Student Activities

DIET Conducts its Educational Tour

The Department of Industrial Engineering and Technology (DIET) held its Educational Field Trip on February 26, 2014. It was participated by respective electrical technology, automotive technology, electronics technology and industrial engineering students. Various companies sited in Laguna, Batangas, and Caloocan areas such as Panasonic, Isuzu Phils., Niagara Industrial Equipment, Sarao Motors Phils. and MakBan Geothermal Plant were visited by the students in accordance with their respective major.

This will be of great help for them to fully visualize the actual operations involved within different industrial firms. Exposing them to industrial operations will be an eye opener for them to identify what particular areas in industrial engineering and technology will be strengthened to be more competitive.

Students visit Isuzu Phils.
