BIDS AND AWARDS COMMITTEE
(INFRASTRUCTURE PROJECTS)

SUPPLEMENTAL / BID BULLETIN NO. 1

This Bid Bulletin is issued to modify or amend items in the Bid Documents. This shall form an integral part of the Bid Documents. Please take note of the changes/adjustments for the project, **Repair and Improvement of International House II – 2nd Posting (CvSU-BAC-INFRA-23-009)** with an **ABC of ₱ 5,842,928.32**:

1. Site inspection is a must. Verify actual condition of site.
 - Site temporary enclosure may be sack or any suitable materials that may enclose the workplace.
 2. For electrical works:
 - Refer to the scope of work in Item V, number 2 for the area/part.
 - For the location of power source, there is an existing electrical room per floor in the building.
 - All power supply lines will be connected to their existing main power supply source.
 - For lighting fixtures, refer to Item V: Electrical Works for details.
 3. For painting works: Refer to the scope of works, Item VI, Painting Works. The entire roof of the whole structure or building is included for repainting.
 4. For plumbing works:
 - All plumbing fixtures that will be replaced will be installed in their existing locations.
 - Tapping a location means that all water supply and sewer pipelines will be connected to the existing pipeline.
 5. While it is impossible to identify the source of the leaks without having to dismantle the ceiling, all leaks will be repaired by the contractor upon completion of the project. Possible sources are leaking water supply line, a leaking sewer pipeline, and a leaking downspout that is embedded in the masonry walls.
 6. All materials to be used on site shall be approved by the end-user and the inspector. Hence, specifically on colors/types of fixtures/materials, it is a must that these be checked/approved by the end-user and the concerned inspector. Consult the plan and the scope of work for the extent of tasks of the contract. If possible, let the end user sign your sample as proof of approval. In the event that discrepancies on plans and scope of work occur, generally, the scope of work prevails.
 7. *This bid bulletin does not cancel the information given in the scope of work of the Bill of Quantities but adds clarification to it. Please attach this added information/ bid bulletin to the BOQ and include in the financial envelop.*
 8. Resident site engineer is a must for the projects to be undertaken by the contractor of the university. In cases where there are electrical works, it is required that an electrical engineer or a master electrician be a part of contractors' team to supervise all electrical works. Likewise, master plumbers must supervise plumbing works. Safety Engineer is a must as per DOLE requirement. It can be considered when only one person is the master plumber and the master electrician at the same time as long as his major duty is supervision of both fields. For projects with FDAS (smoke detector, bell etc.) a Registered Electrical Engineer or Registered Electronics Engineer is a must, and for projects with Fire Protection Works (stand pipe, sprinkler, etc.) a Registered Mechanical Engineer.
- *** All key personnel should be included in the list of personnel for submission.
9. In cases of participation to two or more projects, the set of workers and foreman shall be different per project however, the set of engineers and equipment may be reused.

10. Construction safety and health program as well as construction schedule (PERT/CPM/S-Curve) shall be provided by the winning bidder.

GENERAL NOTES:

1. Building Permit

- Building permits are not included in the scope of works of the project.

2. Cash Flow by Quarter

- Please refer to Annex A for the format.
