BAC Secretary, Goods and Consulting Services

## **SCOPE OF WORK**

### **1. GENERAL**

- a.) The Integrated Pest Management Program follows the fundamentals of science. Thus an effective pest control is not just a product dependent undertaking but a practice which means the combination of sanitary practices, pest identification, and proper selection of products, correct application and safe use of these products. Putting into emphasis the environment, the tenants and the applicators.

We recommend a combination of cultural management which include proper waste, drainage, elimination of litters like dead wood and paper materials which offer shelter to flying and crawling insects like termites, cockroaches, mosquitoes, house flies and ants. Regular maintenance of sewerage and drainage by the CLIENT.

### **2. PEST INCLUDED IN THIS CONTRACT**

Flying and Crawling insects; German and American cockroaches, Mosquitoes, Household Flies and Ants  
Termites  
Other pests possible

### **3. BUILDING INSPECTIONS and AREAS COVERED**

The CONTRACTOR shall make a thorough initial inspection of each building before the start date of the treatment. Access to identified areas shall always be coordinated by the CLIENT and the CONTRACTOR. The are of treatment includes the perimeter fence, ground, and buildings, and other possible areas to treat of the whole campus premises. Repair work for the of infected area/s is covered.

### **4. PEST CONTROL PLAN OF WORK**

#### **General Pest Control (Flying and Crawling insects)**

1. Conduct misting and residual spray applications once monthly on pre identified areas.
2. Use only FDA registered products, with strong contact and residual activity against insects for surface sprays
3. Rotation of products with different mode of action every three (3) months to prevent insect tolerance/ resistance
4. Use of normal pump sprayers, Ultra Low volume and mist blower sprayers for good spray coverage

#### **Termite Control**

1. Use only FDA Registered termiticide

2. Use Non repellent termiticide to allow termites to cross contaminate each other until the whole colony is eliminated
3. Apply termiticide solution via pressurized soil injection, wood treatment and injection in
  - A. The 2 Storey Main Building.
  - B. Canteen
  - C. Student Lounge
  - D. Covered Court
  - E. Mound elimination and treatment of trees infested with termites

#### **Materials and Chemicals for Pest Control**

Name of Product	Active Ingredient	Application for
Domino 5 SC	FIPRONIL	TERMITES
Spectra 2.5 SC	BETA CYFLUTHRIN	FLYING and CRAWLING insects
Cyperpro 6 EC	CYPERMETHRIN	FLYING and CRAWLING insects

#### **5. CONTRACT SERVICE REQUIREMENTS**

The CONTRACTOR shall furnish all supervision, labor, materials and equipment necessary to accomplish the monitoring, chemical control methods and pest removal components of the program.

#### **6. PEST CONTROL SCHEDULE**

- a.) Treatment schedules shall be strictly coordinated by the CLIENT and CONTRACTOR beforehand including the safety practices to be implemented by the tenants. It is the responsibility of the CLIENT to inform their tenants two to three (2 to 3 days) prior to the actual treatment and the safety practices to be observed.
- b.) In the event that on the treatment date there is typhoon, flooding, heavy rains or any condition/s that treatment is not possible, the CONTRACTOR shall inform the CLIENT of the postponement and rescheduling of the same.

#### **7. RECORD KEEPING**

The contractor shall be responsible for maintaining a pest control logbook for each site specified in this contract. These records shall be kept on site and maintained on each visit by the Contractor.

#### **8. EMERGENCY SERVICE**

On the occasion/s the CONTRACTOR may be requested to perform special activities not covered by the services enumerated in this Agreement, the CLIENT shall inform the CONTRACTOR thru writing prior to its implementation. The necessary work shall commence three (3) days after receipt of the request/s. Any costs that may be incurred shall be agreed by both parties and shall be shouldered by the CLIENT.

**9. LIMITS OF LIABILITY**

The CONTRACTOR shall be held liable for any actions done by its personnel.
