

SEX DISAGGREGATED DATA OF STUDENTS BY COLLEGE

FIRST SEMESTER, A.Y 2021 - 2022

The landscape of enrollment for the first semester of the academic year 2021-2022 at the main campus of Cavite State University still exhibits a clear dominance of male students. This dominance is particularly evident in the College of Criminal Justice (CCJ), College of Engineering and Information Technology (CEIT), and College of Sports, Physical Education, and Recreation (CSPEAR), where the number of male enrollees significantly surpasses that of their female counterparts.

It is noteworthy to observe significant progress taking place in numerous educational institutions, especially in terms of accommodating a higher number of female students. This progress is particularly noticeable in colleges like the College of Arts and Sciences (CAS), the College of Economics, Management, and Development Studies (CEMDS), the College of Education (CED), the College of Nursing (CON), the College of Medicine (COM), the College of Veterinary Medicine and Biomedical Sciences (CVMBBS), and finally, the addition of the College of Agriculture, Food, Environment, and Natural Resources (CAFENR), which, in the current academic year, managed to exceed the male student enrollments. This outcome indicates a shift in the trend that is consistent with the observations made in the enrollment figures for the academic year 2020-2021, as detailed in the student factsheet for the same academic period (2020-2021).

SECOND SEMESTER, A.Y 2021 - 2022

During the process of registration for the second semester of the academic year 2021-2022, it was noted that the outcomes mirrored those of the preceding registration period for the initial semester. Specifically, it was observed that the College of Criminal Justice (CCJ), the College of Engineering and Information Technology (CEIT), and the College of Sports, Physical Education, and Recreation (CSPEAR) exhibited a predominant male student population. Conversely, the Colleges of Arts and Sciences (CAS), College of Economics Management and Development Studies (CEMDS), College of Education (CED), College of Nursing (CON), College of Veterinary Medicine and Biomedical Sciences (CVMBBS), and Medicine (COM) were characterized by a significant presence of female students. This semester, it is also noticeable that the number of male and female students in the College of Agriculture, Food, Environment, and Natural Resources (CAFENR) declined and is almost identical to the number of male students enrolled.

SPOKEN POETRY AND SHORT FILM CONTEST

On December 12, 2022, aligned with the College 2022 GAD plan and implementation of the celebration for the 18-day campaign against VAW, CCJ organized and facilitated a spoken poetry and short film contest.

The program began streaming at around 1:00 p.m. It commenced with a prayer and the singing of the Philippine National Anthem, followed by welcome remarks from Ms. Francisco. The main events included a spoken poetry contest with nine (9) CCJ students participating, followed by the streaming of six (6) short film contest entries.

After the short film, the winners for the Spoken poetry contest were announced.
